Dr Sharp's Oral Care Philosophy & Commitment to Sustainability

Dr. Sharp's philosophy is simple – by earnestly caring about our environment and consequently its effect on our health, his oral care formula is free from potentially harmful chemicals (specifically fluoride, sls, alcohol and paraben) and provides a healthy alternative to industry offerings. His vision and dedication to the demands of educated consumers combines the expertise of four generations of family dentistry coupled with advanced technology and comprehensive research resulting in the safest and most effective, natural oral care line that is doctor endorsed and distinctly formulated with certified organic ingredients.

All of Dr. Sharp's toothpastes and mouthwashes are made with natural ingredients and herbals that harness many of the restorative and nurturing qualities found in nature. The collection includes fresh mint and green tea whitening pastes along with a strawberry cream kids formula, fresh mint mouthwash, toothbrushes and a tongue cleaner. **The ingredients in Dr Sharp's products are** vegan and never tested on animals. The company's commitment to sustainability even extends to its packaging - Dr. Sharp's boxes are printed with soy ink, and the bottles are PBA-free. Even the casing and components for the toothbrushes and tongue cleaner are 100% recyclable, (with the exception of the bristles).

Dr. Sharp actively strives to shape a better world through his sincere commitment to sustainability. Working from a USDA Certified Organic facility, the development and manufacturing processes efficiently utilizes resources in a manner that minimizes waste, usage of water, and overall impact on the environment.

At the community level, Dr. Sharp is reaching out to doctors across the country to promote dental health and educate his colleagues and the general public alike about the health benefits of fluoride-free dental products. For more information on Dr. Sharp's initiatives, please visit www.fluoride-free.com. Dr Sharp's Oral Care is available at Dr Sharp's office- Prosthodontic Dentistry of South Florida, online at www.drfluoridefree.com, at upscale boutiques and spas across the country including Zitomer, New London Pharmacy, Clyde's, The Standard Hotel & Spa and internationally at Brasif in South America Duty Free Shops Airports. The line is also offered in over 120 specialty pharmacies in Turkey and in the process of expanding to several Middle Eastern Countries.
