

Dr. Sharp's Cruelty-Free Dental Care Solution

Great news: if you're looking for a healthy, cruelty-free alternative to effective dental care, you've got to try [Dr. Sharp's](#) products. Doctor-tested and earth-approved, each of the tasty flavored toothpastes and mouthwashes are made with natural, vegan-friendly ingredients—none of which are tested on animals, of course!

Some of the key benefits and ingredients for each product include:

- Made without fluoride (more info about that [here](#)), [parabens](#), [sodium lauryl sulfate](#) (SLS), or alcohol
- Formulas derived from certified organic botanicals
- Regular use helps to promote healthy teeth & gums; the [fresh mint and green tea](#) formulas assist with whitening, as well
- Made with natural flavors: no color added
- Naturally sweetened with [stevia](#)
- Wrapped in environmentally friendly, sustainable packaging

Sound good so far? Let me not forget to mention just how yummy each toothpaste tastes: the [green tea](#) reminded me of the popular ice cream staple at Japanese restaurants, of which I'm rather fond. Mind you, I'm not suggesting that you ask for dental hygiene products after your next deluxe sashimi platter—I mention this only in reference to my old clandestine habit from childhood—and, just to let you know, it *is* safe to swallow. The kind peeps at Dr.Sharp's have assured me that absolutely no harm will come to those who choose to turn this toothpaste into some kind of low-fat/low-carb dessert alternative! (Since I have such a strong background in testing for compliance, I did my due diligence and tried the kids' [strawberry cream](#) flavor—it also met my rigorous standards for good taste.)

All right, enough about me and my idiosyncrasies—time to talk about the [fresh mint mouthwash](#) next. This formula is also devoid of fluoride or detergents, yet you'll definitely notice a tingle after rinsing (don't try to drink this one, please). This pleasant sensation is derived from a soothing blend of witch hazel, sage and licorice extracts, combined with a natural mint flavor.

4-item combo

Each of these products can be purchased online at [drfluoridefree.com](#). Right now, they're offering a special deal: purchase a [family pack](#) of 4 for \$35.95—almost \$13 off the regular price for the set. If you're only looking for toothpaste, try [3 flavors](#) for \$25.95 instead.

Note: Press samples of each product referenced were provided for the purpose of testing and reviewing.

Stay tuned for our upcoming promotion featuring [Dr. Sharp cruelty-free dental products](#).
