

Looking Sharp!

August 18, 2010

Prosthodontic Dentistry of South Florida
2601 S. Bayshore Drive, Suite 760, Miami

Greenies everywhere, rejoice!

Why?

Miami-based dentist **Dr. Bruno Sharp** has created a safe, earth-approved brushing alternative for children of all ages.

How?

Dr. Sharp's **Strawberry Cream Kids Eco-friendly Toothpaste** is consistent with his philosophy of creating products which are **fluoride-free, non toxic, eco-friendly** and **safe to swallow** as none of his formulations contain any of the potentially harmful ingredients most commonly found in traditional brands.

His Strawberry Cream Kids toothpaste is fluoride-free and contains natural ingredients such as certified organic botanicals that harness many of the restorative and nurturing qualities found in nature. The product ingredients are **vegan** and not tested on animals.

Another added bonus?

The box is printed with soy ink.

Available at dentist's offices throughout the U.S. & Canada, as well as Dr Sharp's office, Prosthodontic Dentistry of South Florida, and online at www.drfluoridefree.com.

Brush with love.
